### An Order That He Had Neglected to Obey.

"I had a queer experience with a gripman on a Mount Auburn cable car this morning," said a Fifth street cigar dealer to a Cincinnati Tribune man. "You know there is a sign in the car which reads: 'Don't put your feet on the seats,' or something to that effect. Probably they were afraid that you would scratch your shoes on the rough seats. Anyhow, the sign's there. "On the car there was but one other passenger, evidently a friend of the gripman. He was sitting in the seat next to the official, and the two enjoyed a long and animated discussion concerning the system of transfers soon to go into operation over the new extension of the Oak street line. In a careless way I had placed my foot upon the seat, or rather my toe was against the edge, but in no danger of harming the woodwork. The gripman reached over and in an authoritative tone said: "You must take your feet off the seats. See the sign? Them's our orders from headquarters, and we must obey them. "Is that so?" said I. "Do you obey all the orders that are given out?" "Sure" said he. "What's that order up there?" said I. "Which?" said he. "That one that says: 'Don't talk to the gripman.' You have been talking to your friend for 15 minutes and never once told him to stop talking to you."

"He looked dazed for half a minute, and then said: "That's one on me, partner. Let's saw wood, and say nothin'." "Then I rested my feet in peace."

### LUBRICATING A WATCH.

No Other Piece of Machinery Will Run So Long After a Single Oiling. Very few of the millions of people who carry watches realize to what a powerful extent lubrication is developed, and what an extraordinary number of turns the balance wheel makes with one oiling, says the Philadelphia Record. A Chestnut street watchmaker, whose knowledge of these wonderful pieces of mechanism is not exceeded by any man in this city, has made up an interesting table of comparison to show the perfection of lubrication in a watch.

A watch will run on one oiling from a year to a year and a half. Every minute the balance wheel turns on its axis 450 times, and 27,000 times in an hour. Accepting the year as the time the ordinary watch will run with one oiling, he finds that if the driver of a locomotive was as well oiled as a balance wheel of a watch, it ought to run 60 miles an hour day and night for 618 days, or well on to two years, with one oiling. In that time it would traverse a distance equal to nearly four times the circumference of the earth. In view of the fact that in reality few locomotives will run one day without re-oiling, he maintains that the watchmaker has developed his art to a far greater degree than the locomotive builder has yet been able to reach.

### HUGE KITES TO AID SCIENTISTS.

A Princeton University Party to Explore the Famous MESA CLIFFS. Prof. William Libby, of Princeton university, accompanied by several scientists of repute, has begun an exploration of the famous MESA cliffs in the United States Indian reservation of New Mexico. It is expected that the task will require many weeks for its completion.

Prof. Libby, who is a geologist and an Arctic explorer, conceived the idea of attempting to investigate this district years ago, but no means offered itself until William J. Libby, of New York, perfected his kite machines for aerial transportation. Mr. Libby has built a contrivance formed of four huge kites arranged in a square, four feet apart. These kites can be sent up in the air to a height of 500 feet. The apparatus was sent by express to the scene of action and an expert in their use sent by Mr. Libby to fly them, under Prof. Libby's directions.

Mosquitoes in Hartford. Hartford also has a plague of ferocious mosquitoes. They have stopped baseball games, and street car conductors and motormen travel with heads swathed in handkerchiefs. The situation, which follows very heavy rains through July, is the worst of the kind ever known in the city. Chicago Times.

### The Mother's Pay Day.

What pay does a hard-working mother of a family receive for her labor at the end of a week? The husband may bring home his regular wages. Some of the children may be old enough to earn theirs. But the mother, what is her pay for her days of toil and often nights of anxiety? Well, she is either paid in love or she isn't paid at all. The majority of mothers are perfectly satisfied with the simple recompense of loving appreciation. If any mother doesn't receive that much, it's an awful pity. It's a sad thing when the mother comes down sick with overwork or worry, or because some little weakness or disease has been neglected until it gets to be alarming. It should never be allowed to get to this point. She ought to be looked after right away. She needs the help of common sense medical treatment. Of course no one medicine will cure everything. A medicine must be specially adapted to its particular purpose. If the digestive organs or the liver are out of order Dr. Pierce's Golden Medical Discovery is a perfect and scientific remedy. His "Favorite Prescription" is specially devised for weaknesses and diseases of the womanly organs; and it is the most potent remedy for these troubles which has ever been invented.

Where both these conditions exist these two medicines taken alternately constitute a thoroughly scientific course of treatment, which has been marvelously successful with thousands of dyspeptic, debilitated and nervous women. "I take great pleasure in recommending Dr. Pierce's Favorite Prescription, 'Golden Medical Discovery' and 'Pellets'," writes Mrs. Ted Lawrence, South Hero, Grand Isle Co. Vt. "My trouble was female weakness, kidney disease, neuralgia, change of life and bad flowing spells. I took eight bottles of Dr. Pierce's Favorite Prescription, seven bottles of 'Golden Medical Discovery,' and seven small vials of 'Pellets.' The doctors did not help me any. I could not sleep night nor day. I suffered everything before I began to take Dr. Pierce's medicines. When I began to use them I weighed 100 pounds. Now I weigh 145 pounds. I can now do all my work."

THE MONETARY COMMISSION.

What has become of Mr. Hanna's Monetary Commissioners? They seem to be as badly lost as Professor Andree, who started in a balloon to find the North Pole. It looks very much as if one was as visionary and farcical as the other. Several expeditions have set out to find the North Pole. Some returned and others were never heard of after they reached the Arctic Circle. The Monetary Commission seems to have shared the fate of the latter. Since Mr. McKinley sent his special message to Congress at the close of the extraordinary session requesting that \$100,000 be appropriated to defray the expenses of a commission to formulate a measure to fasten the gold standard permanently on the country nothing has been heard of the commission sent to Europe by Mr. McKinley to convert the money kings of that country to bimetalism.

As Congress appropriated \$100,000 for the European farce perhaps the commissioners have made up their minds to have a good time at the public expense. They know they can accomplish nothing for silver, but as they were not expected to, there will be no disappointment, and, unless they are very extravagant in their expenditures the \$100,000 ought to last them a year.

What a farce this European Monetary Commission has proved to be. When a report reached this country that the commission had been accorded a hearing in France and that there was a probability of France sending delegates to the proposed monetary conference the President let the cat out of the bag by asking Congress to provide for the appointment of a Monetary Commission to place the country on a permanent gold basis as recommended by the Bankers' Conference held at Indianapolis. Then, if not before, the commissioners sent to Europe, had their eyes opened and became lost to the world. Whether the President knows their whereabouts or, being in ignorance on that point, will order a searching party sent to Europe to hunt them up, remains to be seen, but there is a greater probability of Andree returning from the North Pole in his balloon than there is of Mr. Hanna's commission returning from Europe with any assurance that the money kings of that country, who are adding millions to their wealth at our expense, will agree to any change in our financial system that will lessen their profits.

SENSIBLE SILVER MEN

There were three political parties in Nebraska, each and all in favor of the restoration of silver; now the three are as one. Believing in the truth of the adage, "in union there is strength," they decided to consolidate their forces in a solid phalanx against the common enemy. To accomplish this object was no easy task. Mr. Hanna's agents, equipped with money, were to the fore in Nebraska as they were in Ohio recently. Nebraska Populists, however, are less susceptible to Mr. Hanna's seductive influences than Coxey's men and they spurned the offers of the gold men. The silver Democrats, silver Republicans and Populists united and nominated a ticket which will receive the combined support of silver men in the State.

Nebraska, the home of Bryan, has set an example which silver men in all parts of the Union should follow. Men who agree on the paramount issue of the day and, doubtless, the greatest issue of the century, should work in union against the gold men who are the enemies of the masses and who care nothing for the welfare of ordinary people so long as they are enriching themselves. Let Nevada follow the example of Nebraska by uniting all parties and factions that favor free coinage against the pestiferous gold bug. What if men do differ somewhat on tariff schedules, prohibition, woman suffrage and other minor questions? They agree on the restoration of silver which at present is the most important question before the American people and one on which all who desire to see general and permanent prosperity throughout the country can and should unite.

REFUSED ADMITTANCE.

Immigration Commissioner Walter P. Stradley has written a letter to the Secretary of the Treasury regarding the landing of the five Hagsten orphans who arrived at San Francisco from the Hawaiian Islands on the bark R. P. Ritchet.

Mr. Stradley recommends that the oldest child, a girl of 14 years, be refused admittance. He refuses to make known the cause of his decision in the matter, but it is understood from other sources that he considers the girl is not a proper character.

The commissioner has also suggested to Secretary Gage that in case the other four children are allowed to land that the Hawaiian Government will have a precedent whereby they can continue to dump paupers into the United States, and in view of this fact he states that it might be well to refuse the five children admittance to this country.

Later advices from the Department of Immigration, ordered the return of the five children to their island home.

The Klondike gold fever is raging in New England. It is a goldbug section.

TELEGRAPHIC NOTES.

Adam Nipsheew, a miner, committed suicide at Yankee Hill Friday by placing a giant powder cartridge in his mouth and firing it. His head was blown off.

J. J. Troutman, a recent arrival at San Francisco, made a desperate attempt at suicide yesterday. He imagined he was being pursued for some crime and tried to cut his throat. Delirium tremens is supposed to be the principal cause of his troubles.

The Republican State Convention of Colorado yesterday nominated Chas. E. Hayte for Justice of the Supreme Court. Judge Hayte is a Silver Republican and it is believed his nomination will be ratified by the Silver Republicans, who are holding a convention at Glenwood Springs.

President McKinley arrived at Columbus, Ohio, yesterday. He addressed the school children at the fair grounds. An unsigned note was received by the Mayor telling him of a plot to assassinate the President on account of Powderly's appointment. Precautions were taken accordingly.

Charles O. Lee was arrested yesterday morning at San Jose under the name of J. H. Whitney, charged with adultery. He registered himself and a woman as his wife at the New York Exchange Hotel under the name of Whitney, and a woman at Los Gatos, who claims to be his legal wife, swore to the complaint, giving his and her name as Lees.

Russell D. Ward of San Francisco, who gained so much notoriety through eloping with the wife of Millionaire Bradbury of Los Angeles, leaped from a Pullman car window on the Chicago & Northwestern train Friday night in the State of Iowa. His body, clad only in a nightgown, was found near Wheatland, Iowa. It is not known just what caused Ward's rash act, unless it was owing to a temporary fit of insanity. His absence was discovered by the conductor when nearing Chicago. His clothing and effects were found in the berth he had occupied. The police of Chicago are mystified over the occurrence and especially so owing to the receipt of a telegram without signature saying, "please send a good man to drawing room B, car 2 of east-bound overland Northwestern train arriving Chicago 7:30." The telegram was sent from Fremont, Neb., in the afternoon. Detective Broderick met the train at the depot and found that drawing room B was the section Ward had occupied. The trainmen claim that Ward exhibited no signs of insanity when he entered the train. It is reported that a portly gentleman entered the train with Ward at Fremont and after seeing Ward into the drawing room came out, pulling the door shut after him. It is not known whether he looked the door from the outside or not. The man left the train and immediately telegraphed the police at Chicago. The police think Ward was of unsound mind and his friends had sent him to Chicago. Investigations are in progress.

An Extensive Business for Sale. On account of various matters in which he is interested demanding so much of his attention, E. H. Cowles finds that he cannot devote the proper amount of time to his Grocery Business at Wadsworth and hereby announces he will sell the building at Wadsworth in which is located his General Merchandise Store, the lot on which it stands, a large fire-proof cellar, the stock of goods on hand, the good will, etc. The goods are all fresh, nothing shop worn. The business is a prosperous one and the only reason for selling is to enable Mr. Cowles to give all of his time to other industries in which he is engaged. Wadsworth is the best business town in Nevada to-day and this opening offers a splendid opportunity for some good man to locate in Wadsworth. Call on R. H. Cowles at his store. aug26mol

The pay-roll for the month of August for the mines, mills, water company etc., on the Comstock amounted to \$58,794, about \$9,000 less than the month of July.

The Third Annual Convention of the Nevada State Suffrage Association will be held October 30th, 1897, at Carson City in Odd Fellows Hall, meeting at 10 o'clock.

The Austin Mining Company has purchased the Knickerbocker mill, T. Mitchell's mines, W. S. Gage's mines and store, and Frank Bradley's mines, all of Ione. Consideration \$23,000.

A party of Government surveyors are on the Comstock endeavoring to find out how far the surface of the earth in that section moves each year. It is said that shafts that were once straight are now so crooked that a bucket cannot be dropped in them handily.

There will be a meeting of the State Board of Agriculture on Saturday next.

Will Dixon has returned from a visit to the seashore and is again at his post.

Mrs. John Messenger has a two-horse wagon for sale or trade. See 50 cent column.

Crookery, glassware, tinware and agateware lower than ever at Lange & Schmitt's.

A. F. Trousdale one of Humboldt county's Commissioners, spent the day here yesterday.

S. Enrich has received a large assortment of new dress goods suitable for school dresses.

Bids for privileges at the State Fair will be received until next Saturday. See advertisement.

The Methodist Conference attracts quite a number of divines and church people to the town.

Ed Lachman is visiting Carson, Virginia and southern points in the interest of the Parry Brothers.

The sportsmen can hunt wild ducks after the 15th, the game law expiring on that date for the year.

Ruhstaller's Gilt Edge beer at Spiro Francovich's Wine House, also all other fancy and mixed drinks.

The annex to the Riverside Hotel is rapidly approaching completion and will soon be ready for occupancy.

Universal cook and heating stoves, and cheaper grades sold at cost to reduce stock at Lange & Schmitt's.

There are eleven prisoners in the Elko county jail, and it cost the county \$128 50 last month for their board.

H. Riter and Jas. Kerr of the Elite make many friends by their prompt and courteous treatment of all patrons.

Jack Murray has been painting and decorating the Elite. His work has improved the appearance of this popular resort.

The Genoa school will open next Monday with but one teacher, as there is not sufficient money on hand to pay two.

Mrs. Chas. Lake has a splendid assortment of gold and fountain pens that she is selling at the most reasonable prices.

It is the intention to bid on any of the State Fair privileges, now is the time for action. Read the ad. in another column.

The Genoa Courier reports that the Pin Hook group of mines, near Wellington, has been bonded to a San Francisco party for \$7,000.

Dr. Matthew, editor of the California Christian Advocate, is in attendance at the Conference. He is the guest of Mr. and Mrs. Webster.

H. J. Thyes proposes to make several new improvements in his store and introduce some new features to the trade. Look out for them.

Fred and Pete of the Monarch and Louvre are constantly introducing new features. At the Louvre a fine lunch will be served on order.

The lunches at the Granite Saloon cannot be excelled and the beer is served ice cold. A choice stock of wines by the bottle or gallon.

The discovery of a new and very poisonous moth naturally happened in Massachusetts. That State makes heavy appropriations for killing bugs.

Dr. P. T. Phillips was an eastward-bound passenger yesterday morning en route to Ohio. The doctor will probably locate permanently in California.

# STATE VS. THE V. & T. CO.

The Judgment of the Lower Court is Affirmed.

The Supreme Court last evening filed its opinion in the case of the State vs. the Virginia & Truckee Railroad Company involving the taxes due Washoe county on the company's main track and side track. The opinion is by Belknap, C. J., Bonfield, J., and Massey, J., concurring, and affirms the judgment of the District Court. The verdict of the jury finding the assessable value of the property to be \$12,200 is sustained. Under the rule that the value of a railroad for taxable purposes should be determined by its net earnings, capitalized at the correct rate of interest and under economical management, the Court holds that the jury was justified in fixing the above value on the property that the net earnings of the road, as admitted by the company, were \$28,038 58 and under the testimony there should be added to said sum \$18,839 60 on account of the reduction of operating expenses for that year, making the total net income of the road about \$46,878. This sum, capitalized at 6 per cent, represents about \$700,000, of which sum Washoe county's proportion is about \$260,000. The Court also holds that the penalties imposed were proper under the provisions of the Act of March, 1895, and also under the provisions of Section 48 of the Revenue Laws of 1891. The Court also holds that the jury was justified in finding the rate of interest from 6 to 8 per cent as there was testimony to support such findings.

"In any particular case," says the Court, "the gross receipts to be considered for said purpose is not, necessarily, the receipts which were in fact received, but such receipts as would be received under a reasonably economical and prudent management; and the expenses to be deducted in order to determine the net income, is not, necessarily, the expenses which were in fact incurred, but such expenses as would be incurred under a reasonably economical and prudent management."

Methodist Conference.

The second day of the Conference Session of the Nevada Mission opened at 8:30 A. M. yesterday morning. Devotional exercises led by Rev. G. S. Hatcher was the first order of the day. Bishop Newman called the Conference to order. The minutes of Thursday's session were read by the secretary and the order of business was proceeded with.

Question 9 of the discipline, relating to the course of study for ministers in the third year was taken up. Revs. Geo. C. King, J. H. Rosea, Thos. H. Nicholas and W. N. Bott were called upon and reported their work for this period, and the committee on examination having reported favorably, they were advanced to the studies of the fourth year.

Dr. W. S. Mathew, editor of the California Christian Advocate, was introduced and for half an hour addressed the conference in the interest of his paper. Rev. John Thompson, D. D., Pacific coast agent of the American Bible Society, was introduced, and spoke strongly in favor of introducing the good book everywhere in the land and the work he had accomplished.

After a subscription had been taken up for the ministers' fund, the afternoon meeting was closed. Dr. Matthew pronounced the benediction.

EVENING SESSION.

The M. E. Church was filled to overflowing last evening, the occasion being the annual educational anniversary of the Nevada Mission. Rev. J. R. Gregory of Virginia presided. Dr. W. S. Mathew, editor of the California Christian Advocate, was the first speaker, his subject being, "The Scholar and His Influence in the State." He showed that the men who laid the foundations of our government were college-trained men and that the political prosperity of the country depends upon the part which educated men take in affairs national and municipal.

Dr. Stubbs followed with a masterly address upon "The Functions of Higher Education." He stated that the offices of higher education were, first, to develop the whole powers of a man; second, to teach him to apply his knowledge; third, to lead him from high to higher ideals of his relation to life, duty and God.

Both addresses were marked by earnestness of manner and depth of thought and were warmly applauded. This morning's session will commence with devotional exercises at 8:30 led by Rev. Greenfield; regular conference business at 9 o'clock.

Carson People Decide to Meet the Reno Boys.

The Carson News says the cyclers of that city have decided to meet the Reno boys in a contest and have so notified them. The 12th of this month is the date named to try conclusions and it is presumed that arrangements will be made accordingly. The race promises to be an exciting one. A special train will be engaged to accommodate the team and spectators on the day of the race, leaving Carson in the morning.

Now Papers.

The Nevada Press Association at its annual meeting in September, 1896, unanimously resolved not to exchange with any new paper started in Nevada, except in a new town, until the paper had been run a year. This resolution has not been rescinded and the Press Association should abide by it or abrogate it. There are more papers now than can make a respectable living and there are "no long felt wants" in the newspaper line in Nevada.

Celebrated for its great leavening strength and healthfulness. Assures the food against alum and all forms of adulteration common to the cheap brands.

ROYAL BAKING POWDER CO., NEW YORK

FROM THE KLONDIKE "LYRE."

Quotations from Our Klondike Exchange-Arctic News.

Our esteemed townsman, Bud Gravel, placed upon our desk yesterday a handsomely shaped nugget. It weighed 27 pounds. We have credited him with three months' subscription to the Lyre.

We are pleased to see that Mr. Gravel, who is one of our best citizens, is doing well. He is one of a syndicate who expect to buy a quart of whisky next Saturday night.

The high wind yesterday raised considerable dust. Jake Luckenbill, who was on the El Dorado road with his team, says he was nearly blinded by it. When he came home he coughed up \$73.89. One of our greatest needs is street sprinkling.

Dawson Pottibone has finished his new well in the rear of the kitchen. It has now 11 feet of ice water in it, and he has washed over \$85,000 in dust from the dirt taken out.

The widow Larkin yesterday met with a misfortune which will, we are sure, call forth the sympathy of the public. During the heavy rainstorm in the afternoon a regular torrent rushed down the gully back of her house and washed so much gold dust into her pig sty that the pig was smothered. A subscription has been started for her benefit.

While Ike Sigman, the esteemed proprietor of the Big Strike saloon, was fishing in the river yesterday his boat struck a snag; it proved to be a 600 pound nugget. He will have it taken out and will use it for a horse block in front of his place. Ike is always bound to have the best that is going.

Large numbers of dead cat fish are seen floating in the river every day. When examined it is found that every one of them has from six to eight ounces of gold dust in its stomach. This carelessness of allowing loose gold to escape into the river will ruin the fishing unless stopped.

Bill Jacobs made a pretty good strike on the Little Juniper this week. He struck plenty of gold at the depth of three feet, but as the lumps were too big to carry, he closed up the hole and has staked another claim further up the creek.

Alex Cameron put a new fire place in his cabin this week, but he will have to build another one. After he had completed it he built a roaring fire but there was so much metal in the stone that it melted and ran all over the floor. He now has a gold-plated floor but no fireplace.

There was a bull movement in dog meat yesterday, the price closed at 63 cents above the opening figure. It is supposed to be due entirely to professional speculation.—Pittsburg Times.

In Jail Again.

The case of Anderson, alias McCormick, charged with wife beating, is now in Justice Holbrook's court, Nevada City. It was set for trial before Justice Treblecox, at Grass Valley, Wednesday, but was transferred to Justice Paynter's court. District Attorney Riley did not like the manner in which the change of venue was made, so he appeared before Justice Paynter and asked that the case be dismissed, which was done. Mr. Riley then had McCormick brought before Justice Holbrook on a charge of battery, and he will be tried here. McCormick was held in \$500 bonds, which he furnished, with Patrick Riley and J. F. Roach of Grass Valley as sureties. The bond was unsatisfactory and McCormick was again locked up.

Mrs. McCormick's case will be tried later. With her father, J. F. McIntosh, and Charles Jones, U. S. District Attorney for Nevada, she came over from Reno on Tuesday and is awaiting developments.—Nevada City Herald.

LATER—U. S. Attorney Jones returned last evening and reported that Mrs. McCormick had been acquitted and that McCormick got six months for assault.

A New Experiment Station.

The Starrett Bros. of Battle Mountain are conducting an Agricultural Experiment Station for the Government, at their farm about three miles from town in the Humboldt valley. The results so far are wonderful and the exhibit fully demonstrates what can be accomplished along the Humboldt river.

The disorderly element that infested Elko a few weeks ago and were run out of the town, appear to have got as far west as Wadsworth and it is expected that the citizens of our neighbor will soon make them move on, and Reno will doubtless have an increase in population, but it will only be a temporary one, as our officers do their work well.

# WEATHER BULLETIN

(Copyright, 1896, by W. T. Foster.)

St. Joseph, Mo., Sept. 4.—My last bulletin gave forecast of the storm wave to cross the continent from September 8th to 12th and 14th to 18th.

The next disturbance will reach the Pacific coast about September 10, cross west of Rockies country by the close of the 20th, the great central valleys the 21st to the 23d, the Eastern States the 24th.

The warm wave will cross the west of the Rockies country about Sept. 19th, great central valleys, the 21st, Eastern States 23d. The cool wave will cross the west of the Rockies country about the 22d, great central valleys 24th, eastern States 26th.

The low of this disturbance will pass through the Northern and the high through the Southern States, causing cool weather in the south and high temperature in the north.

Temperature of the week ending September 11th will average below normal in the Northern and above in the Southern States. Not much rain in the Northern States that week. Rains will begin in the Southern States and severe storms may be expected about the close of that week.

The Viavi Work.

In no way can we do more good than in restoring the sick to health. This Viavi will do, if intelligently used.

Have you stomach trouble? Use our Tabloids.

Have you piles? Use our Sano.

Have you catarrh? Use our Catarrh Remedy.

Are you weak and all run down? Use Viavi.

Come and see me and I will fully explain the use of all of our remedies.

Mrs. B. E. HUNTER, Fourth Street.

Wines! Wines! Wines!

A. T. Dormio & Co., opposite the depot, have just received, a large consignment of wines which will be sold at a 25 per cent reduction. They are of Santa Clara and Santa Rosa vintage and are of the purest quality. Just the thing for medicinal and family use. Read the list: Zinfandel, Maderia, Angelica, Tokay, Port, Sherry, Catawba, Claret, Reisling and others; also imported Italian wines and grape brandy.

A Woman Talks  
on Woman's Ills.

The Sex Shows Pathetic on Their Own  
Weaknesses From Sense of False  
Modesty.  
From the Times, Los Angeles, Cal.  
Women suffer from certain diseases pecu-  
liar to their sex, and usually have great  
difficulty in speaking of such ills. Just why,  
we cannot say. There would seem to be no  
more reason for silence in such matters than  
there is about the ordinary every day ills.  
Occasionally, however, a woman of strong  
sense is found, and is an exception to the  
rule. Such a one is Mrs. Rosie S. Thomp-  
son, of 819 East First Street, Los Angeles,  
Cal. This is what she says:

"For five or six years I was seriously ill  
with female complaint. I could not go  
about, I suffered intense pain, and at times  
I was hardly able to raise myself up in bed.  
I was then living in San Bernardino and I  
consulted a physician who thought he could  
cure me. For seven months I was under  
his care taking his prescriptions, but he did  
me no good at all, and I grew worse instead  
of better. Finally I tried another physician  
and I was under his care for several months,  
but he did me no more good than the first  
one. I tried all sorts of remedies without  
any beneficial effects.

"Finally I saw an advertisement of Dr.  
Williams' Pink Pills for Pale People, and I  
resolved to try them. I began taking the  
pills. The effect was wonderful. Almost  
immediately I began to improve. I have  
taken these pills now for six or seven months,  
and I am entirely cured. I had previously  
tried every sort of remedy that I could think  
of, besides consulting many doctors, and  
nothing helped me until I took these pills.  
They are the best remedy I ever used, and  
the only one I would recommend. I am  
now as well as I ever was in my life and  
have had no return of my complaint.

"I make this statement voluntarily and  
in the hope that it may lead others now suf-  
fering as I suffered to try these pills.  
"This statement is given solely with a  
view to helping others and directing their  
attention to the greatest medical discovery  
of the age—Dr. Williams' Pink Pills for Pale  
People.

Dr. Williams' Pink Pills for Pale People  
contain, in a condensed form, all the ele-  
ments necessary to give new life and rich-  
ness to the blood and restore shattered nerves.  
They are also a specific for troubles pecu-  
liar to females, such as suppression, irregu-  
larities and all forms of weakness. They build  
up the blood, and restore the glow of health  
to pale and sallow cheeks. In men they  
effect a radical cure in all cases arising  
from mental worry, over-work or excess of  
whatever nature. Pink Pills are sold  
in boxes (never in loose bulk) at 50 cents  
a box or six boxes for \$2.50, and may be  
obtained of all druggists, or direct by mail from

A Young Woman

GOING INTO A DECLINE, AND THAT HER  
LUNGS WERE AFFECTED. THEY

But to Fight Lung Troubles or any  
Wasting Disease, Build up  
Your Flesh.  
From the Express, Los Angeles, Cal.  
Two years ago, back in eastern Iowa, Miss  
Maude Lease began to go into a decline.  
She lost flesh rapidly. Her appetite failed.  
Fearful headaches nearly drove her frantic.  
She consulted local physicians—good, honest,  
practitioners. They told her that her lungs  
were affected, that medicine might allevi-  
ate, but a change of climate was the only  
remedy that offered a prospect of cure.

"I and despondent she delayed as long as  
possible her departure, but at last it became  
imperative, and she came to an aunt at  
Verdi, Nevada, in the hope of finding health  
and strength in the pure air and among the  
pines of the Sierra Nevada. But she con-  
tinued to fail, and to add to her miseries,

EFFECTS OF SPORT.  
Those Who Indulge in Pastimes to  
Excess Bear an Indelible Mark.  
"If you don't want the world to know  
that you have done a thing, don't do  
it," was the sage observation of an an-  
cient philosopher. The advice has a re-  
newed force now, when women are be-  
coming more and more emancipated,  
and are taking up the pursuits and  
occupations and even the sports and  
pleasures that used to be considered  
men's especial prerogatives. Whether  
women's faces are more mobile and  
more ready to receive an imprint or  
whether women are less given to self-  
restraint and so express more of their  
inner feelings is not definitely under-  
stood, but the fact remains that on  
nearly every feminine face is indelibly  
stamped some impress of her favorite  
pursuit or amusement.

The bicycle face is well known, with  
its tightly drawn muscles, resolute,  
tense expression and an underlying air  
of resignation, as if it were saying:  
"If death whirled around the next cor-  
ner I will meet it with fortitude." The  
long-distance lens of the golf-eye is  
also growing common, but the card  
face is comparatively new. The more  
experienced Sherlock Holmeses of so-  
ciety claim that they can detect the  
difference between the whist face and  
the countenance molded by progressive  
cubie, but the card face in general is  
recognizable by the veriest tyro.

There are women who have thrown  
themselves into card playing so fever-  
ishly, with such intense excitement,  
that it is no longer a diversion, but a  
serious task. Whether they play for  
money or for points or for some trum-  
pery prize which they would not ad-  
mit to their drawing-room except as  
an evidence of their skill at the game,  
the result is the same. The strain on  
their nerves is expressed by closely  
drawn brows and an eye eager and  
watchful for an opponent's plays and  
misplays, while greed and the desire  
for gain show themselves in the ugly  
lines about the mouth. This descrip-  
tion applies, of course, to the worst  
victims of the craze, but the same sym-  
ptoms, in a more or less modified form,  
are appearing on the faces of not a few  
of society's maids and matrons.—Mun-  
sey's Magazine.

MAUDE LEASE'S STORY.  
learned to know the anguish of suffering  
which attend that complication of ills, that  
for want of better nomenclature, has been  
denominated "female weakness."  
And now comes the miserable part of  
the story, just as she told it to the inter-  
viewer last night:  
"I ran down to 118 pounds," she said,  
"and suffered tortures from those terrible  
headaches and from sleeplessness. My aunt  
persuaded me to try Dr. Williams' Pink  
Pills for Pale People. I had used nearly  
every kind of 'prescription,' could get no  
relief from them, and hoped for none from  
these pills at to please mention I began to  
take them. From the first day I noticed a  
beneficial effect. The headaches grew less  
severe; my appetite gradually returned. I  
could sleep nights and began to get good and  
strong."

"I used to take one of them three times a  
day. In two months I weighed 138 pounds  
and was entirely well, and have been well  
ever since. The winters at Verdi were very  
cold and, besides, I had heard much about  
Southern California that I came to Los An-  
geles."

"Dr. Williams' Pink Pills for Pale People  
have helped me more than anything I have  
ever taken. I thank them for my health  
and ability to enjoy life. I am living at  
number 800 Hope Street, Los Angeles, and  
shall be only too glad to repeat what I have  
just said to anybody, in person or by  
letter."

So spoke young and attractive Maude  
Lease, and no one who saw her big eyes snap  
as she said it could doubt the earnestness  
and sincerity of her statement.  
And that is why we say the story of a  
miracle is floating through the air, although  
now the miracle has become an established  
fact.

Dr. Williams' Pink Pills for Pale People  
contain, in a condensed form, all the elements  
necessary to give new life and richness to the  
blood and restore shattered nerves. They are  
an unalloyed specific for such diseases as  
locomotor ataxia, partial paralysis, St. Vitus'  
dance, sciatica, neuralgia, rheumatism, nerv-  
ous headache, the after effect of la grippe,  
palpitation of the heart, pale and sallow  
complexions, all forms of weakness either in  
male or female, and all diseases resulting  
from vitiated humors in the blood. Pink  
Pills are sold by all dealers, or will be sent  
post paid on receipt of price, 50 cents a box,  
or six boxes for \$2.50 (they are never sold  
in bulk or by the 100) by addressing Dr.  
Williams' Medicine Co., Schenectady, N. Y.

AN OPEN LETTER.  
From the Herald, Sauk Centre, Minn.  
The following communication was recently  
received by the manufacturers of Dr. Wil-  
liams' Pink Pills for Pale People:  
Dr. Williams' Medicine Company:  
"I was born in Germany and am thirty-  
seven years old. I live with my husband  
on a farm. For ten years I suffered with  
leucorrhoea so that I was a burden to my  
friends and myself also. I had tried a great  
many doctors and different kinds of medi-  
cines without securing any benefit. My  
condition had become so deplorable that I  
had almost given up hope of recovery, when  
one day I saw in the Sauk Centre Herald an  
advertisement of Dr. Williams' Pink Pills  
for Pale People, and as I have never seen  
a box of Pink Pills, so I grasped this chance  
and purchased from Hanson & Emerson a  
box of Pink Pills. I commenced taking them  
in March, 1896, and after taking one box I  
felt so much improved that I bought more.  
"After taking them for a time I found to  
my surprise that I was entirely cured. Ever  
since then I have been as strong and well as  
I ever was, and am able to do the grueling  
duties which fall to the lot of a farmer's  
wife without feeling the least fatigue or in-  
convenience.  
"I hope this will be the means of placing  
your wonderful pills in the hands of some  
sister sufferer, who may rejoice with me. I  
am satisfied that no woman need suffer as I  
did, when such an efficient remedy is so  
close at hand."  
(Signed) Mrs. H. STERNBERG.  
Subscribed before me this 19th day of  
December, 1896.
